

You are already aware about existence of  
**Ferrochem NDT Systems Pvt. Ltd.** Jejuri, Dist. Pune, State Maharashtra.  
 FerroChem is a company which manufactures products  
 related to MPI and LPI in Non Destructive Testing (NDT).  
 We have our Manufacturing activity at our factory.

**The Types of Products we manufacture are as follows,**

### **DYE PENETRANTS FOR CRACK DETECTION**

#### **RED COLOR PENETRANT**

|                                                                                                                                                                                                                                              |                                                                                                                                                                                                                      |                                                                                                                                                                                                                                    |
